

**SL-CLIP2S-SS-V5**  
stripe to stripe connector

**PRODUCT FEATURES**

- » MONO Tape to Tape Connector
- » Solderless connection concept
- » suitable for 5 mm wide mono LED tapes
- » Connection with LED tapes by simple locking system
- » Packaging unit: 5 pieces

**DIMENSIONS**

|                              |                   |
|------------------------------|-------------------|
| » Dimensions (LxBxH) .....   | 15 x 6.5 x 3.3 mm |
| » Pin Gap:.....              | 4.2 mm            |
| » LED stripe width:.....     | 5 mm              |
| » LED stripe thickness:..... | 0.25~0.35 mm      |

**TECHNICAL DATA**

- » Rated Current: ..... 3 A
- » IP ..... 20
- » Operating Temperature:..... -10 ~ 45 C

**SAFETY AND INSTALLATION INSTRUCTIONS**

- » This product is not a toy and is not suitable for children!
- » The assembly must be carried out free of tension!
- » These products consist of sensitive electronic components and must not be exposed to mechanical stress.
- » Do not mount the LED strips / plugs on moving parts, free from tensile and torsional forces.
- » Avoid mechanical stresses such as kinking, bending or chafing!
