

SL-FLEX-HWW10W-*
Silikon Profile for LED Stripes

MONO

PRODUCT FEATURES

- Silicone profile with 8 mm wide SIRO LED strips
- Can be milled in or used as a surface-mounted solution
- Uniform and soft light, lateral light channel
- incl. 500 mm connection cable with SIRO MONO plug
- Can be controlled and dimmed with SIRO MONO receiver

TECHNICAL DATA

- Nominal Current:..... 9,6 W/m
- Nominal Power:..... 24V DC
- Beam Angle:.....110°
- Operating Temperature:.....-25°C - + 60°C
- Storage Temperature:.....-40°C - + 8°C

PHOTOMETRIC DATA

- Rated luminous flux:..... 1200 lm/m
- Nominal luminous flux:..... 1200 lm/m
- Color Temperature:.....3000K
- Rendering Index:..... >90
- LED-TYPE:..... SMD Microchip
- LED per Meter:..... 160

DIMENSIONS FLEXLINE

- width: 6 mm
- height:..... 12 mm
- Milling width:..... 6 mm
- Milling depth: 12 mm

AVAILABLE LENGTH

- SL-FLEX-HWW10W-450: 450 mm
- SL-FLEX-HWW10W-600: 600 mm
- SL-FLEX-HWW10W-900: 900 mm
- SL-FLEX-HWW10W-1200: 1200 mm
- SL-FLEX-HWW10W-1500: 1500 mm
- SL-FLEX-HWW10W-2000: 2000 mm
- SL-FLEX-HWW10W-2500: 2500 mm
- SL-FLEX-HWW10W-3000: 3000 mm

Due to the complex manufacturing process of LED products, the values given are only statistical values that do not necessarily correspond to the parameters of each individual lamp.

A test milling is recommended before processing!
